

Pee Dee Hi-Lite

SERVING 20,760 PEE DEE ELECTRIC MEMBERS

Prepay Makes a Difference

Like most electric cooperatives, Pee Dee Electric offers another option rather than traditional billing: Prepay. Our members who utilize the prepay system have the flexibility of purchasing their electricity when they want, in the amount they choose. It provides an opportunity to pay as you go.

Pee Dee member Donna Reid says that switching to the prepay system has worked out extremely well.

“Before using prepay, I worried about getting that bulk bill. I was in school and working fulltime so the last thing I wanted to think about was being behind on my power bill,” said Reid. “One of the member service representatives suggested I try the prepay program, which would allow me to purchase power as I used it.”

With the prepay method, Reid is able to pay as little or as much as she wants to without receiving a monthly bill. Prepay allows her the convenience to purchase her electricity as she uses it.

The switch in billing also offered her the opportunity to learn how to become a more energy efficient consumer.

Pee Dee Electric member Donna Reid and her daughter Précis

“Before Prepay, I did not pay much attention to my power usage, but after the switch to Prepay, I looked for ways to become more energy efficient,” Reid said. “I adjust my thermostat when we are away. It has helped me save money over time.”

Reid encourages other co-op members to try out the prepay method of billing and has recommended it to friends.

“I always promote the program to other Pee Dee members, I think it is a good fit for anyone looking to become more energy efficient and save money. The switch has given me peace of mind,” she says.

For more information about the Pee Dee Electric Prepay program, visit pdemc.com or call our office at 704-694-2114.

Offices Closed

Pee Dee offices will be closed on Tuesday, January 1, for New Year's Day; and on Monday, January 21, in observance of the Dr. Martin Luther King, Jr. holiday.

Meter Upgrade Coming Soon

Pee Dee Electric has begun the installation on the new meter system. You may see us in your area updating meters. Please contact the office with any questions.
